Objective

Computer Science student with a strong technical foundation in **C++**, **Object-Oriented Programming**, **Data Structures**, and **Algorithms**, currently specializing in **Flutter mobile application development using Dart**. Seeking an internship or entry-level software development role to apply skills in **building efficient, scalable applications**, writing **clean and maintainable code**, and contributing to real-world projects while continuously enhancing technical and **problem-solving abilities**.

Education

- **Bachelor of Computer Science and Information Technology.**
Faculty of Computers and Information – Zagazig University.
GPA: Excellent
2023-2027(Expected)

Volunteering Experience

- **IEEE Student Branch Member**
 - Participated in **technical sessions**, workshops, and collaborative activities related to **programming and software engineering**.
- **Google Developer Groups (GDG) – Student Member**
 - Engaged in **development events** and **community activities** focused on **mobile development** and **problem-solving skills**.

Languages

- Arabic – Native Language.
- English – Intermediate.

Courses

- **Programming Fundamentals & Problem-Solving**
 - Completed the first **8 courses** of *Abu Hadhoud Programming Roadmap*.
 - C++ basics.
 - Problem-Solving techniques.
 - Structured programming concepts.
- **Data Structures & Algorithms**
- **Digital Egypt Pioneers Initiative (DEPI) — Flutter Track**
 - Dart Programming.
 - UI Development.
 - State Management.
 - Building Cross-Platform Application.

Projects

- **Flutter Mobile Application** (Training Project)
 - Develop a **cross-platform** mobile application using **Flutter and Dart**.
- **Java Game Project – Catch the Ball**
 - Built a simple interactive game using Java.
 - Applied OOP Concepts and basic game logic.
- **Math Game C++** (In Terminal)

Technical Skills

- **Programming Languages**
 - C++, Dart, Java
- **Mobile Development**
- **Core Concepts**
 - OOP, Data Structures, Algorithms
- **Tool**
 - Git, GitHub, Android Studio, NetBeans, Visual Studio Code.

Personal Information

- **Date of Birthday:** 9/8/2005
- **Military Service:** Postponed (Student)
